Allowable Subject Matter

1. **Claims 25, 26, 29, 30, and 31 renumbered as 1-5** are allowed.

The following is an examiner's statement of reasons for allowance:

2. **Claims 25, 26, 29, 30, and 31 renumbered as 1-5** are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art references which teaches the further step of making a *determination* that the successive communications between the at least one host in the mobile LAN and the last least one host in the external network occurred a period of time apart from each other that is *greater than* the predetermined time period with respect to assigning a new address. The prior art typically teaches assigning new (translation) addresses when either the session terminates/ends or a lease expires (i.e., a predetermined time period ends).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
